Care Instructions

Upholstered furniture will weather naturally with time. While we think this adds character, we also believe in maintaining your new furniture's pristine character for as long as possible.

To do so, we recommend:

- Keep your piece out of direct sunlight.
- In the event of a spill or stain, blot immediately with a soft, clean cloth, but resist rubbing, as this just encourages stains to spread and penetrate the fibers more deeply.
- If needed, spot clean with a non-water-based solvent.
- Vacuum regularly, using all of your machine's attachments to reach every corner, and rotate or flip cushions weekly for even wear.
- Lastly, treat your new furniture to periodic professional upholstery cleaning. It will thank you with a long and beautiful life.

Custom upholstery pieces are made to order and are not returnable. Please allow 6-8 weeks for delivery.
